# **KOMBINE**

An all-purpose, full coverage shoulder pad with fully-integrated Riddell RipKord shoulder pad removal system.

#### INTEGRATED RIPKORD™ TECHNOLOGY

The RipKord shoulder pad removal system utilizes a release mechanism that is strategically integrated into the shoulder pad that allows for quick and easy removal and access to the player.

Shoulder pad design that sits low across the player's shoulder, minimizing interference with the rotational range of the helmet. Rigid belts route forces away from the point of impact by converting the entire arch into a large-scale, shock absorbing system.

Rust-resistant hardware used to attach components of the shoulder to add structure and rigidity to the pad.

## **PHENOM**

This all-purpose varsity shoulder pad comes standard with a removable Y-Belt connector - a rigid strap that connects the arch to the belt to better pull the shoulder pad around a player's body.

#### **AIR MANAGEMENT LINER**

Shoulder pad liner construction that attenuates impact energy on a cushion of air within semi-sealed chambers. Energy dispersion occurs through spreading the impact forces within a large volume of air slowly released from the liner at a controlled rate.

**FLAT PAD DESIGN** 

Shoulder pad design that sits low across the player's shoulder, minimizing interference with the rotational range of the helmet. Rigid belts route forces away from the point of impact by converting the entire arch into a large-scale, shock absorbing system.

Ability to shift pads to meet player's preference.

#### FROM THE SIDELINES

After coaching TackleBar football for four years, I'm convinced it is the best way to introduce contact sports to young athletes. I recommend TackleBar for kids and parents looking for safer fun on the gridiron.

Logan U'u - Head Coach St. Paul Academy Spartans St. Paul, MN

# Riddell TACKLEBAR

TackleBar is an innovative alternative for varsity training and on-field modified youth football, helping athletes learn to block, track and engage opponents with proper form and technique without taking players to the ground.

And now, as part of the USA Football Football Development Model, TackleBar helps create an ideal bridge game to full contact using traditional equipment.

#### FUNDAMENTAL SKILL DEVELOPMENT FOR TODAY'S GAME

- Teaches proper tackling and technique
- Creates an ideal transition between flag and tackle football for youth athletes
- Focuses on fundamentals without taking players to the ground
- Applications in varsity and youth practice and youth games
- Teaches game speed tackling while managing live contact
- Increases participation, eases player and parent concern

#### FROM THE SIDELINES

We do very little live contact throughout the season and TackleBar has helped to make that possible. We feel it is a much safer and more effective way to tackle while still stressing the physical part of the game."
